

Port looks to create economic opportunities

The Lady Washington brig made a stop at the Port of Camas-Washougal marina in the summer of 2006.

Port facilities provide economic and recreational opportunities for district residents and visitors.

Grove Airfield

With 79 hangars, 17 tie-downs, and an above-ground fuel tank that provides 24-hour self-serve access to 100 Low Lead fuel, Grove Airfield is a popular place for avid aviators to gather.

The site, at 632 N.E. 267th Ave., in Fern Prairie, is located five miles north of Camas. It offers restrooms, a shower and a picnic area. There is also radio-controlled runway lighting and a rotating beacon for night flying.
